10:00am – 1:00pm: Masterclass

1:00pm - 2:00pm: Informal discussion over light lunch

DRUG TREATMENT OF SUICIDALITY

- Suicide and psychiatric disorders
- Review of antidepressants
- Choosing antidepressants for suicidality: efficacy and tolerability
- Suicidality, antipsychotics, mood stabilisers and benzodiazepines
- Open discussion

Convenors: Professor Nick Keks and Dr Judy Hope

Special Comments by Christine Culhane

The Masterclass Series is aimed at Psychiatrists and Professionals who already have a knowledge of basic psychopharmacology and who wish to expand their practical knowledge base by engaging in discussions on the practice of prescribing.

The Masterclass is a facilitated, collegiate discussion of the practice, art and safety of prescribing psychotropic medications.
