

DELMONT PRIVATE HOSPITAL GRADUATE NURSE PROGRAM

-Registered Nurse

Delmont Private Hospital's Graduate Nurse Program has been designed to provide a supportive practice environment for graduate nurses and aims to consolidate theory into practice and build a strong foundation of knowledge and skills to work in clinical mental health area.

Graduate Nurse Program is for newly graduated nurses and nurses who are transitioning into becoming a Mental Health Nurse.

This is a structured program which provides you support, confidence and competence to work in mental health and addiction health care with enhancing your future career opportunities.

Graduate Nurse Program offers:

- 12-month structured program
- Clinical ward and Specialty Area Rotations
- Comprehensive orientation
- Preceptorship support through educator(s), preceptor(s) and clinical supervisor(s)
- Dedicated supernumerary days for each rotation
- Paid Study Days to support learning and growth
- An accredited graduate program with several Universities
- Financial assistance towards their post graduate studies
- Ongoing employment opportunities offered after program completion
- Part time employment (4 days a week) with 5 weeks of annual leave

Clinical Rotations offered:

- General Adult Psychiatry
- Aged Mental Health
- Substance Use and Addiction
- Neuro Stimulation Services (Electroconvulsive Therapy and Transcranial Magnetic Stimulation)
- Inpatient Therapy
- Delmont Day Program
- Community Outreach Services

Application Requirements:

We welcome applications from student nurses who are approaching graduation, recently graduated nurses and experienced Registered Nurses.

Prior to commencement at Delmont Private Hospital, you will require registration with AHPRA. Please see AHPRA's website for more information <https://www.ahpra.gov.au/>
You also need to have current and unrestricted rights to work in Australia.
